

Job Announcement for Resource Protection Technician

Lake Soil and Water Conservation District
125 East Erie St., Painesville, OH 44077 440-350-2730 Fax 440-350-2601

Hire Date: OPEN

Salary Range: Approx. \$30-40K commensurate with experience - 40/hr. week
special salary considerations for unique and exceptional experience

Benefits: Paid holiday, county health/life, and state retirement programs

Searching for self motivated and professional individual to guide an established water quality management/pollution prevention program.

Requisites: Associate or Baccalaureate degree in land use planning, natural resources, conservation, geology, environmental engineering or related field; valid Ohio drivers license; Working knowledge of Personal Computers and proficiency with MS OFFICE and database applications. Certified Professional in Erosion and Sediment Control (CPESC) status preferred.

Experience in several of the following:

Short/long-term project management; development, review implementation of erosion and sediment control plans or storm water pollution prevention plans (swppp); Local/state/federal government institutions and financing; Grant and foundation support programs and experience in services for local officials; utilization of state/federal resource agencies
Report production; public presentations; direct landowner assistance; data acquisition and management; GIS experience;

Responsibilities:

Supports District's natural resource protection programs through application of local state and federal programs, assisting local governments with erosion and sediment control, zoning, and local initiatives to comply with state and federal regulations.

Work closely with private groups, public agencies, and communities with educational presentations, work sessions, and demonstration projects relating to the impacts of urbanization and storm water management on Lake County's natural resources.

Use GIS applications/District database to track Lake County land development and construction projects, Document District's natural resource protection program, write grants for projects and program needs.
